

Special Olympics Southern California, Santa Barbara Region presents:

# 8th ANNUAL SCHOOL GAMES

The Spring track & field School Games provides the only inter-school athletic competition opportunity for children and teens with intellectual disabilities. Students from Carpinteria, Goleta, Santa Barbara, and Santa Ynez Valley and more will train for two months with the help of participating Special Education teachers to compete in this event!

There are various ways to show your support for these students including helping with staging, heat sheets, timing, awards, and of course set up and break down. Registration is now available to volunteer at the 8th Annual School Games! To register, visit:
